

## BLACKBOX EVENT

Blackbox Software Inc. (“**Blackbox**”) is an Information Technology (IT) Solutions corporation duly registered with the Philippine Securities and Exchange Commission, bearing Company Reg. No. 2023020086816-37 dated 23 February 2023; the Bureau of Internal Revenue, bearing Taxpayer Identification Number 623-180-840-00000 dated 14 March 2023; and the Intellectual Property Office, bearing Registration No. 4/2021/00525463 dated 1 January 2022.

It is the brainchild of Blackbox’s visionary leader, President and Chief Executive Officer, **Ms. Leah Hernandez**, whose passion to help our Overseas Filipino Workers (OFWs) secure safe workplaces and achieve fulfilling careers abroad is beyond measure. Her innate desire to assist them is tempered with an advocacy for their protection from all forms of maltreatment, abuse, and exploitation at their places of destination.

In 2023, Blackbox will be formally launching **Project360** – its pioneering and innovative Software Application via mobile phone – to select high officials of the government, as well as to representatives of the private sector engaged in recruitment.

This Application is intended to provide end-to-end solutions to both private and public stakeholders in its real-time monitoring of workers, messaging, and notification features anywhere in the world.

It is the result of years of preparation and testing by Blackbox’s experienced team of IT professionals using cutting-edge technology that is operable for both Android and iOS mobile units tailored fit for the needs of our OFWs.

Hand in hand with the passion and thrust for unity of our government in providing for the needs of our OFWs, Blackbox is now ready to complement these ideals with no added cost to the government but with full benefits for all OFWs and their families.

### MISSION

To provide deployed OFWs with quality and immediate online access, focusing on their needs in foreign territories, and assuring their families of their status and safety.

### VISION

To create the most compelling seamless IT solution using cutting-edge technology for the support and monitoring of our OFWs’ welfare and protection.

**“TULAY SA PAG-ABOT NG PANGARAP, KATUWANG ANG PROJECT360”**
