Re: Appointment Letter

Dear Ma'am,

I am **Lea Hernandez, President and CEO of Blackbox Software Incorporation.**, a software company duly organized and existing under Philippines laws which created a Mobile App dubbed as **"Project 360"** with a goal of providing end-to-end solutions to both private and public stakeholders in its real-time monitoring of the workers through its messaging and notification features available anywhere else in the world.

I am writing to convey my request for a meeting with you this March 2023 for me to present our software program that is capable of providing a reliable and revolutionary system for round the clock monitoring of OFWs for their locations, for prompting alerts on emergency cases, real-time data of country destinations, job demands by skill and category which are vital for the stakeholders to come up with immediate, scientific and methodical solutions to their concerns.

Your advocacy for the advancement and protection of the welfare of OFWs is commendable and worth emulating for a person like me who was once an OFW and had a first-hand experience on how it was to be in an unfamiliar territory and away from my families which gave me a better grasp of the realities surrounding the lives of the millions of our kababayans abroad.

Our experienced team of IT professionals with passion for creativity has brought together their skills, talents and international experience in the field of software programming to come up with mobile apps operable both for Android and IOS tailored fit for the needs of OFWs and concerned institutions for their welfare, protection and safety.

I look forward to having a positive response on this request for a meeting with you on your convenient time this month.

May God continue to afford you with strength and grace in public service.

Very truly yours,

A handwritten signature in black ink, appearing to read 'Lea Hernandez', is placed over a light blue rectangular background.

Ms. Lea Hernandez
President and CEO
Blackbox Software, Inc.
